

Serena Everill

A diverse background in of working in social justice and health, Serena is a sculptor and a maker, creating art to challenge the world and herself. As a passionate gardener, she is inspired by organic shapes in nature, by light and shadow as well as the insanity of the modern world. Serena primarily works in metal and is enthralled by the magical process of shaping metal with heat or sheer force.

Serena has exhibited as part of a number of group shows and 1 solo show including:
